All donations are tax deductible and support the center's low cost mental health services for those in need. Pennock Center for Counseling turns no one away based on the inability to pay. Fees are set based on a sliding fee scale according to income.

Pennock Center for Counseling was incorporated in 1983 by Mary "Penny" Pennock, who had a vision of helping people in need of counseling.

The program has evolved over 25 years from a single psychotherapist working out of an office in the Presbyterian church to their own building staffed by a full time director and clinician, two full time therapists, two bilingual therapists, an office manager, and student interns.

The program continues to be a ministry of care for those in need of help with a range of concerns, including depression, anxiety, relationship problems, post-traumatic stress, grief, divorce, and child and adolescent problems.
